Every interaction is an opportunity to impact, positively or negatively, the capability and commitment of those you lead. Collaborative and intentional interaction is where your influence is manifest as a leasder.

4 COACH FOR SUCCESS

Coaching – helping others succeed – is the craft of today's workplace leader. It involves clarifying expectations, observing the effort, diagnosing the need, and addressing the need. Be the coach your team needs you to be.

5 BUILD YOUR TEAM

Most of us can identify teamwork when we see it. But leadership is about creating and sustaining it. Gain the skills and use the tools that build and sustain a strong team.
